### Study Tour - Science Centre Digha

"I hear and I forget, I see and I remember, I do and I understand" - Confucius

We as a school include educational trips as part of the curriculum to provide students the joy of discovery and the opportunity to learn new things through travel. It was a great way for students and educators to absorb, interact, and grasp theory practically. Our Grade 4/5/6/7 students had a fun, enriching, and learning experience not only at an educational level but also at a personal level where they learned sharing and bonding with their friends and peers.
