School Student Committee Formation

Our school proudly launched its first Student Committee, comprising students from Grade 4 to Grade 11. This committee has been created to foster leadership, responsibility, and active participation among students. Members will oversee and monitor various aspects of school functioning, including discipline and daily conduct, and will report their observations to the school authorities.

The committee will operate on a bi-weekly rotation, allowing more students to take part and represent the school. This initiative aims to build ownership, strengthen student voice, and cultivate a culture of accountability across the campus
